Operations and financial control of LV Logistics are managed by our computer system running our own bespoke version of Freightbase Sapphire.

All LV offices around the globe have connections to this system so that all data is live by the minute. The system forms the basis of our Track & Trace facility:

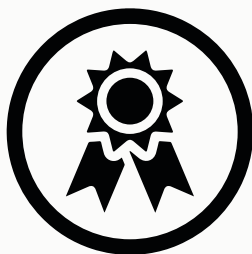

- » All LV Vehicles are equipped with GPS tracking
- » Live data transferred to bespoke Track & Trace System
- » Client access through LV secure website www.lv-logistics.com

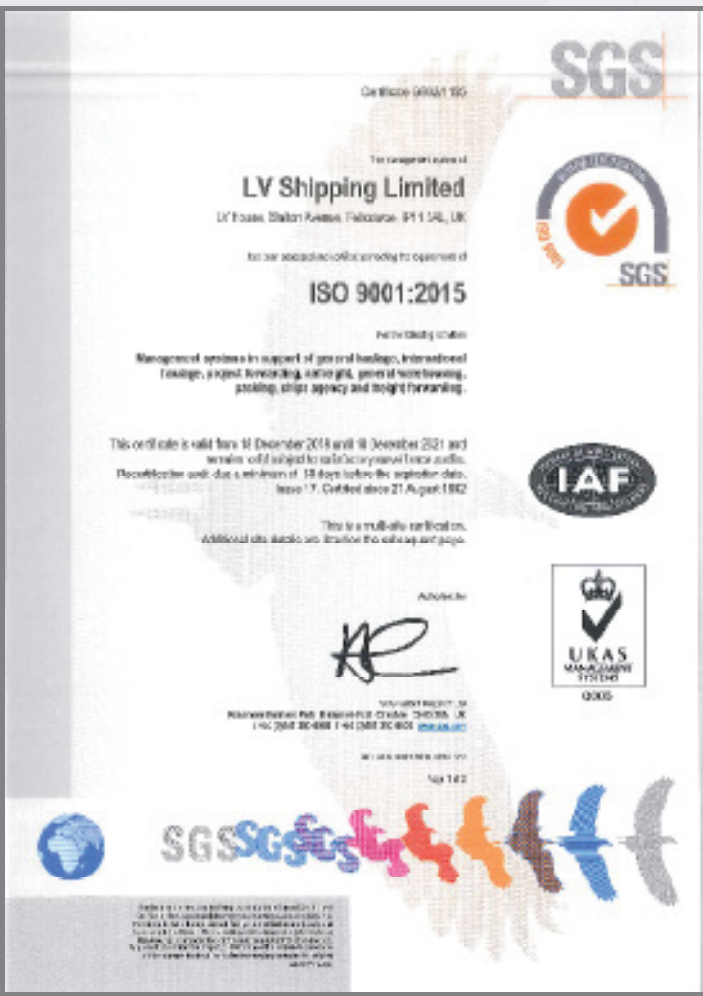

- » Access to real-time data any time
- » Provision of weekly status reports available

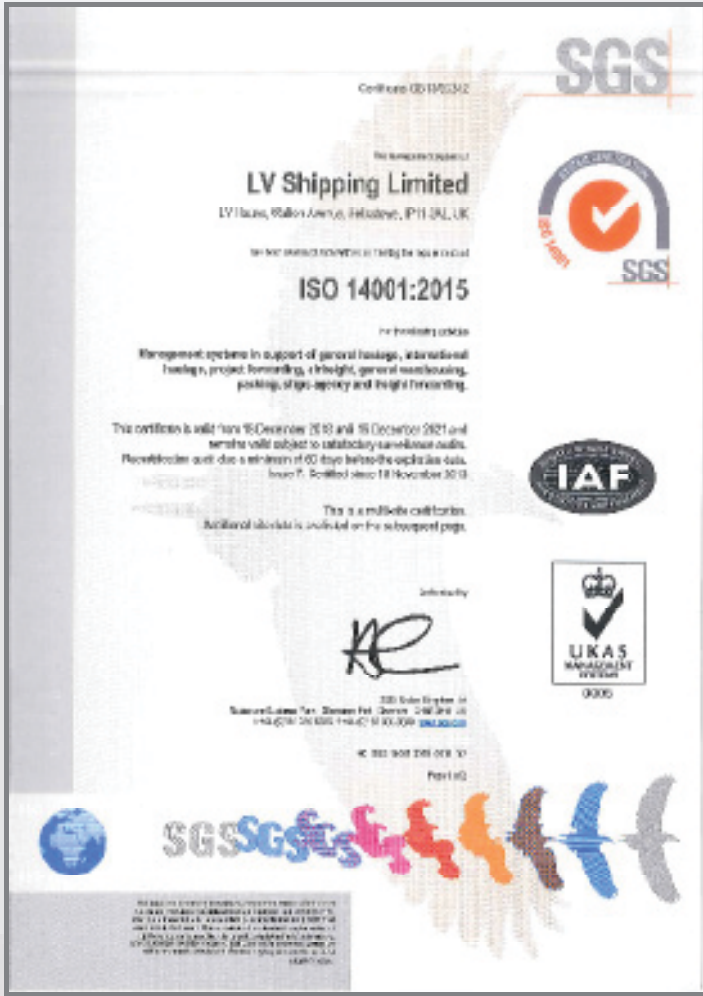

LV CASPIAN Certification and Memberships:

ISO 9001:2015
Quality Management
System

ISO 14001:2015
