ENVIRONMENTAL MANAGEMENT POLICY

At LV Logistics we provide a wide range of services, we operate in many sectors across the world and are aware that our scope of services has the potential to affect the environment. We commit to carrying out our business in an environmentally responsible manner.

In order to achieve this commitment we will ensure that our management systems are aligned with the requirements of international standard ISO 14001 which are capable of successfully delivering our environmental objectives.

Senior management are responsible for providing the overall framework of the management systems within which we shall:

- Understand the hazards that our operations present to the physical environment, and work to minimise any adverse impacts.
- Understand and comply with environmental conditions laid down by national and international regulators, industry codes and conventions, and client standards.
- Ensure objectives and strategies for improving our environmental performance are set, implemented and monitored.
- Ensure that employees and sub-contractors have necessary training and competencies, are given responsibility for environmental protection and are made aware of their responsibility.
- Design our procedures in such a way that the protection of the environment is addressed as part of daily business.
- Avoid the creation of uncontrolled discharge of waste, emissions and effluents to the environment.
- Identify methods for the monitoring, auditing, review and improvement of the environmental management systems to ensure their ongoing integrity and suitability for our operational needs.
- Identify the need for corrective, preventative and improvement action and take such necessary actions.
- Internally and externally communicate information relevant to the environmental management system, as required by the compliance obligations and communication processes.

All LV Logistics employees, directly contracted staff and subcontractor staff are responsible for:

- Understanding and complying with environmental management systems, policies and procedures and guidance.
- Undertaking all training, as directed by managers, supervisors or accepted third parties.
- Requesting clarification on instructions, plans and procedures if unclear to them.

Whilst the ultimate responsibility for content of this Policy lies with the LV Board of Directors, the responsibility for effective issue, implementation and adherence thereto is the responsibility of our local partners and Directors.

Mark Van Herk
Chief Executive Officer
